

# MasterMind (MM) Group

Ok, so you are not convinced yet. What will you get? Why should you join? Why you should seriously consider investing the time and money to join. I've been a member of several different MM groups and these are my top benefits of joining a MM group.

## Top 15 Benefits of a MM Group

1. Collaboration with like-minded people (common interest)
2. Accountability to reach your goals faster
3. Collective intelligence and advisors with different expertise (specific help)
4. Exclusive community
5. Expanding your network
6. Cross promotion
7. Stretch your brain to think bigger (Generate new ideas)
8. Faster, targeted growth
9. New perspectives through brainstorming
10. Support and deep lasting connections (priceless!)
11. Energy from celebrating wins together
12. Ideas and tools that could save you money/increase productivity/grow your business
13. Feedback
14. Focus and clarity
15. Increased confidence

In other words, the sum total of who you become is dependent on the people you hang out with. The common theme is that all want to share and help one another. (And trust me if you already hear the voice of self-doubt in your mind – You **do** have something to offer!)
